RANKED 1ST IN CHINA IN MEDICINE PROGRAM BY MINISTRY OF EDUCATION CHINA

Jilin University has started to recruit undergraduate international students in clinical medicine (taught in English) (referred to as MBBS) since 2005. After nearly 20 years of efforts, MBBS program has formed a perfect training system, and has actively taken a number of measures to improve the quality of training: introducing a number of overseas experts and scholars, setting up an excellent English teaching faculty, carrying out the medical distance learning program jointly with Mount Sinai School of Medicine, actively promoting the reform of examination methods, trying to converge with the medical education in the United States and other developed countries in terms of curriculum system, etc., all of which have achieved good results and cultivated many outstanding medical professionals.

In April 2023, the College of Basic Medical Sciences formally undertook the training of undergraduate students studying abroad in clinical medicine. There are 322 MBBS students in the College at present, with 53 students enrolled in 2023, the quality of enrollment has achieved a new breakthrough in the last five years, and the freshmen's high school grades are the best in the past years. The freshmen's sources of origin include 13 countries (Iran, Pakistan, Egypt, the UK, Russia, etc.).

Jilin University has won highest academic honor in china

One National Famous Teaching Award winner, one National Excellent Teaching Group and two Provincial Famous Teaching Award winners

Introduction to MBBS program

Bachelor Degree Program in Clinical Medicine (Taught in English) for International Students (MBBS) is a program that draws on JLU's advantageous resources of in the field of medicine. It was set based on World Health Organization (WHO)'s international standards of medical education. Now, the MBBS program enrolls more than half of JLU's international students. After nearly two decades of efforts, the MBBS program has formed a perfect cultivation system and taken active measures to develop excellent English teaching faculty that teach in English, thus gradually improving the quality of its cultivation. For example, it has introduced many overseas experts and scholars, carried out a distance medical education program with Icahn School of Medicine at Mount Sinai, USA, and opened a English-taught continuing multidisciplinary medical education program. Also, it actively promoted the reform of examination methods, implemented "objective structured clinical examination", and worked to align its curriculum with medical education in USA and other developed countries. All these efforts have achieved good results and helped cultivate many outstanding medical professionals.

Changchun at a Glance

Changchun is a famous "Film City", "Automobile City", "Forest City" and "University City" in China, and is hailed as the "Spring City in North China". With four distinct seasons, good air quality, and a pleasant climate, Changchun ranks among China's top four garden cities and has been named "the Happiest City in China" for nine consecutive times. As one of the "Transport Hub" cities in China, Changchun enjoys convenient traffic facilities. It only takes 2 hours by direct flight from Changchun to Beijing and 6 hours by high-speed railway. Urban rail traffic is also convenient. You can take the subway or bus to business streets, cultural streets, parks, and other places.

"In a concerted effort to enrich the academic journey of our medical students, Jilin University proudly announces the appointment of Dr. Umair Javed as a distinguished visiting professor. With a remarkable tenure spanning 17 years in the medical field, Dr. Javed brings a wealth of knowledge and expertise to our esteemed institution.

In his role as a visiting professor, Dr. Umair Javed assumes a pivotal position in nurturing the growth and development of our medical aspirants. Leveraging his extensive experience, he serves as a mentor and guide, offering invaluable insights and personalized support to our MBBS students.

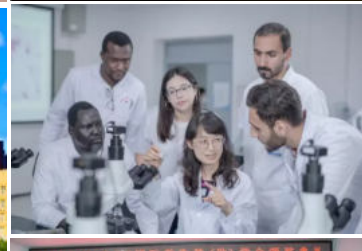

Through his dedicated mentorship, he not only aids students in mastering their academic endeavors but also empowers them to chart their future pathways with clarity and confidence.

Dr. Javed's engagement goes beyond traditional teaching methods, as he actively fosters an interactive and dynamic learning environment. Through thought-provoking discussions, and case-based learning sessions, he encourages students to explore diverse perspectives and cultivate critical thinking skills essential for success in the medical profession.

Through his unwavering dedication and unwavering commitment to excellence, Dr. Umair Javed exemplifies the spirit of academic leadership and mentorship at Jilin University. His presence enriches our learning ecosystem, empowering our students to embark on a transformative educational journey and emerge as compassionate, competent, and ethical healthcare professionals of tomorrow."
